#1 RATED
BRAND
IN CORDLESS OUTDOOR POWER

THERE'S ONLY ONE #1 RATED BRAND

EGO is the #1 rated brand in cordless outdoor power and the undisputed leader in cutting-edge technology and design. Every tool in our platform delivers or exceeds the power of gas— without the noise, fuss, or fumes. Our patented ARC Lithium™ technology makes the EGO POWER+ platform the most advanced in the industry and universally compatible with all 50+ in the growing EGO POWER+ platform and packed with power for unrivalled performance and long run times. In every season, for any outdoor challenge, count on EGO tools to deliver the power, performance, and innovation you need.

#1 Rated brand

EGO is the #1 rated brand in cordless outdoor power according to industry experts and purchasers based on power, performance, durability and value.

Power and performance of gas

All EGO tools deliver or exceeds the power and performance of gas – without the noise, fuss and fumes guaranteeing maximum power, longer run times and industry-leading recharge times.

Industry's most advanced technology

Our patented ARC Lithium™ technology is the most advanced in the OPE industry with its shock-resistant design, intelligent power management, ARC Lithium™ design and keep-cool cell technology.

Innovation

No matter which EGO tool you use, you can expect ground breaking innovation that solves for pain points, such as such as World's first LINE IQ™ Technology, World's first platform compatible ZTR and World's First Auto Tensioning technology.

THE MOST ADVANCED TECHNOLOGY IN THE INDUSTRY

Our patented 56V ARC Lithium[™] technology is the most advanced in the industry. Unlike other battery packs, which are shaped like bricks and retain heat, ours follows a patented "arc" design to prevent overheating and push heat away. The sealed, shock-resistant design protects batteries from drops and the elements—guaranteeing the highest level of performance and durability. Inside, we developed the most advanced software-management system to maximize power and run time. Our proprietary Keep Cool[™] cell technology works with each battery cell to maintain long-lasting power and unmatched performance. With the industry's most advanced battery technology, every tool matches or surpasses the power and performance of gas without the noise, fuss and fumes.

BETTER PERFORMANCE IS BUILT IN

No matter which EGO battery you choose, you'll get:

- Protection from drops and the elements, thanks to our shock-resistant design
- Our patented power management system to maximize power and runtime
- Revolutionary phase-change material that keeps cells running cool
- An integrated fuel gauge that shows you how much power is left
- A three-year limited warranty*

*Up to 5 depending on model

ARC[™] LITHIUM 56V

WHAT MAKES EGO SUPERIOR? INDUSTRY'S MOST ADVANCED TECHNOLOGY

BATTERY EXPERTISE

Over 25 years' experience in
developing best in class
batteries in-house

SHOCK-RESISTANT DESIGN

EGO's sealed and shock-resistant design protects batteries from drops and the elements—guaranteeing the highest level of performance and durability.

INTELLIGENT POWER MANAGEMENT

EGO's intelligent power management monitors and optimizes each individual battery cell to maximize power, performance, and run time.

56V ARC LITHIUM™

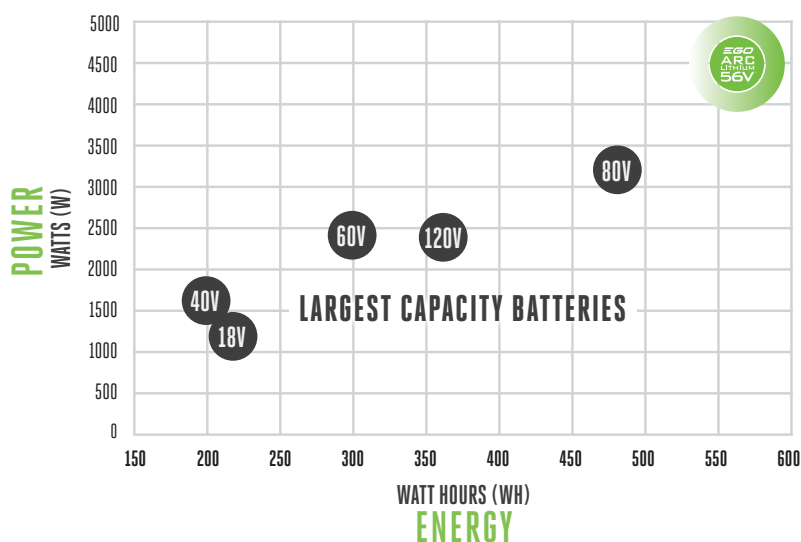

EGO's ARC Lithium™ design keeps the battery from overheating and your equipment running longer at full power.

KEEP-COOL CELL TECHNOLOGY

Each cell of the EGO POWER+ battery is surrounded by revolutionary phase-changing material that pushes heat away.

BATTERY PERFORMANCE OF CORDLESS PLATFORMS

NOT ALL VOLTS ARE CREATED EQUAL

VOLTAGE ≠ PERFORMANCE

Performance of a battery is determined by a combination of **ENERGY(Wh)** and **POWER(W)**

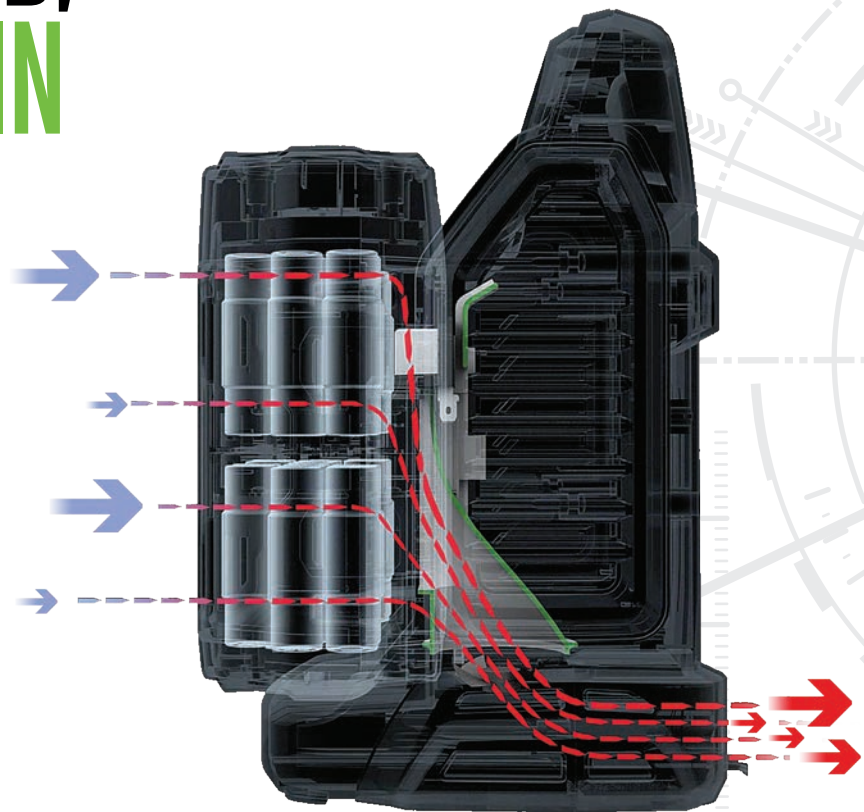

$$\text{CAPACITY (Ah)} \times \text{VOLTAGE (V)} = \text{ENERGY (Wh)}$$

$$\text{VOLTAGE (V)} \times \text{CURRENT (A)} = \text{POWER (W)}$$

FROM EMPTY TO FULLY CHARGED, IN JUST 30 MIN

With a range of battery sizes available from 2.5Ah to 12Ah, you can choose the power you need to. When it's time to recharge, the EGO POWER+ Turbo Charger is the fastest on the market. The intelligent battery control system constantly monitors each cell's charge and temperature to deliver the most efficient and quickest charge.

Plus, the fan-cooling system allows the battery to start charging sooner and finish faster. As a result, the time it takes to refuel the battery is often less than the run time you get from a full charge. So you'll always have a battery ready for all day power and run time.

POWER WHEN YOU WANT IT POWER WHEN YOU NEED IT

A true alternative to compact gas generators

Say goodbye to the gas generator. The EGO Nexus Power Station can harness the power of any EGO battery to deliver clean, quiet power—indoors or out.

The Nexus Power Station is the first portable power station of its kind. Use in a power outage to plug in your refrigerator so the food does not spoil or plug in your microwave to cook the family a quick dinner. Bring the power station anywhere you do not have convenient power, like camping, hiking, boating, tailgating; the possibilities are endless.

Z6

POWER LIKE NO OTHER

The EGO Power+ Z6 Zero Turn Riding Mower is a ZTR like nothing else out there. Featuring Peak Power™+ technology, it can hold up to 6 EGO 56V ARC Lithium™ Batteries – the same battery technology powering all EGO products, making it the World's First Platform Compatible Rider. Delivering 22-25 horsepower, equivalent to a gas engine, and reaching a top speed of 8 MPH, the Z6 covers up to 2-acres (ZT4204L) or 4-acres (ZT5207L) on a single charge. Fully expandable! Add more batteries to cut as many acres as needed – unlike any other battery-powered ZTR in the market. The Industry's Fastest Charger fully charges 40Ah in just 2 hours, 4x faster than competitors. The independent brushless motors deliver the power and performance of gas with an adjustable hydraulic seat suspension for a comfortable mowing experience. Customize the ride with a LCD interface featuring 3 driving modes: Control, Standard, and Sport – that can be accessed with the simple touch of a finger. Premium features like LED lights, USB charging port and Bluetooth come standard to make the experience unlike any other ZTR. Experience zero-turn mowing like never before with the all-new EGO Power+ 42" and 52" Z6 Zero Turn Riding Mower – Power Like No Other.

INDUSTRY'S #1 RATED CORDLESS LAWN MOWERS

The EGO POWER+ 21" Select Cut™ XP Self-Propelled Mower delivers 8.3 ft-lb of torque that exceeds the power of gas. The Select Cut™ Multi-blade Cutting System is equipped with three, interchangeable lower blades; the Mulching Blade, High Lift Bagging Blade and Extended Runtime Blade.

EGO's Self-Propelled Touch Drive™ Technology comes from years of research and development. Touch Drive™ Technology puts complete control of the self-propelled system in the palm of your hands by using pressure to engage the system.

Easily control the variable speed with a dial positioned at your fingertips for safe and convenient operation.

The Select Cut™ XP harnesses the power of the industry's most advanced 56 Volt 10.0Ah ARC Lithium™ battery by delivering 75 minutes of cutting time on a single charge.

WORLD'S MOST INNOVATIVE STRING TRIMMER ASSORTMENT

With a large cutting swath to cut any task down to size, the EGO POWER+ String Trimmers feature an adjustable handle for optimum balance and control.

The soft-start function and constant-speed control ensure consistent trimming and on a single charge, and the ARC Lithium™ battery gives you all the power you need to tackle the toughest conditions.

Other features include variable speed, easy line replacement and dual-line trimming for faster cutting and lower vibration, while the free-rotating bump head lets you rest the cutting head on the ground without it being worn away.

MORE POWER THAN A HANDHELD GAS BLOWER

Powered by a high-efficiency brushless motor, the EGO POWER+ Blowers feature jet turbine technology and a large diameter tube to give maximum airflow.

The variable-speed function is designed to keep you in control, even in Turbo Boost mode that's capable of pushing air up to 195 MPH, depending on the model. That's more than most hand-held gas blowers on the market and that's enough power to clear up even the biggest windfall.

POWER OF GAS WITHOUT THE NOISE, FUSS AND FUMES

It moves air at a staggering 600 CFM: the EGO POWER+ Backpack Blower is the industry's most powerful. With up to 180 minutes of run time, 50% less weight than gas models and eight times quieter, the EGO backpack blower blows all gas blowers away.

Equipped with a premium brushless motor and turbine fan engineering, the Backpack Blower is one of a kind. Adjust the waist belt and tube for your needs and comfort. Harness industry-leading ARC Lithium™ technology to clear your lawn.

POWER TO REACH NEW HEIGHTS, THE NEW EGO POWER⁺ MULTI-HEAD SYSTEM

With a single power unit and many different attachments, it's easy to see why the EGO POWER+ Power Head System is a very handy tool to have around. The simple and secure tool-free coupling makes switching attachments quick, easy and safe. And with our innovative 56V ARC LithiumTM battery supplying all the power you need, you can breeze through a variety of jobs without the fuss or fumes and with less noise than traditional gas-powered tools. Plus the extension pole gives you the reach to tackle any height.

ATTACHMENTS AVAILABLE:

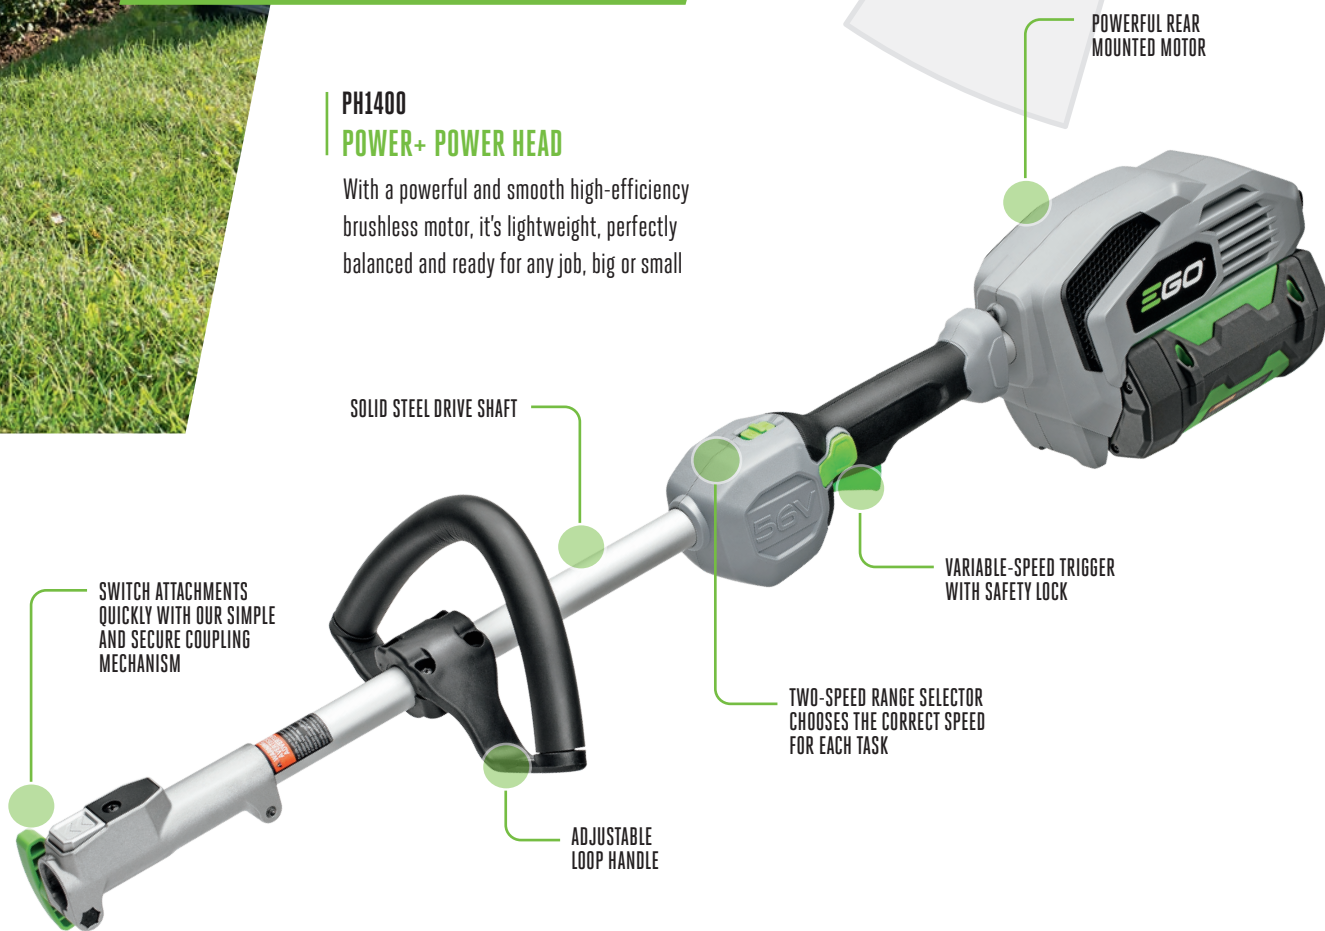

- Extension pole
- Pole saw
- String trimmer
- Hedge trimmer
- Edger

TOOL-FREE CHAIN TENSIONING AND DURABLE BAR & CHAIN

WORLD'S FIRST AUTO TENSIONING TECHNOLOGY

The EGO POWER+ Chain Saws are built tough to tackle even the hardest jobs. Trunks, logs, branches—nothing gets in its way.

The tool-free chain tensioning makes set up and adjustment simple. Check the lubrication level through the oil inspection window and you're ready to go.

It really cuts it when it comes to safety, too.

The chain kickback and electric brake protect you while you work. And the auto-lubrication system keeps the chain spinning freely at all times.

Plus, with EGO's 56V ARC Lithium™ battery delivering such impressive run times and incredible power on a single charge, it'll keep you working cut after cut after.

With its telescopic handle and durable wheels, take advantage of superior portability. Bring to sporting events, tailgates, beach days, patio hangouts, and more! Ideal for cooling down indoor and outdoor environments with quiet operations of just 68 dB on speed 1. Simply drop the intake filter in a bucket to cool down 540 sq. ft. (equivalent to a large entertainment patio)!

TAKE ON ANYTHING WINTER THROWS AT YOU

Introducing the new EGO POWER PLUS 2-Stage Snow Blower - a heavy-duty workhorse with unmatched power from the number-one-rated brand in cordless outdoor power equipment. Peak Power™ technology combines the power of any two EGO 56V ARC Lithium™ batteries to tackle the toughest snow conditions and what the snowplow leaves behind with ease. Get the job done quickly with the 24 in. clearing width and 20 in. intake height to push through even the heaviest of wet snow. 4 LED lights make it easy for use in early morning or evening. On just a single charge, this self-propelled snowblower can clear up to 8 inches of dense snow from an 18-car driveway before launching it 50 feet in the direction of your liking. And heavy duty, thick-tread tires make commanding your way through a whiteout effortless. The all new EGO POWER PLUS 2-Stage Snow Blower - the power and performance of gas without the noise, fuss or fumes.

Featuring Peak Power™ technology the EGO POWER+ Snow Blower combines the power of any two EGO 56V ARC Lithium™ batteries for superior clearing power, even heavy, wet snow. Built with a high-efficiency brushless motor and a 21-inch-wide intake it can handle it all, even what the city snow plow leaves behind.

Easily adjust the variable-speed auger to control how far the snow is thrown, up to 40 feet, for maximum control. A robust, handle-mounted chute-adjustment lever puts the user in control when re-directing the snow up to 180 degrees from side to side. Two bright LED headlights make it convenient for use early in the morning or at night and the robust steel chassis is built for aggressive use in demanding conditions.

POWER+ COMMERCIAL SERIES

POWER FOR PROS MEET THE COMMERCIAL SERIES

When we created our EGO POWER+ commercial series we set our standards high. Not content with developing a range of tools that redefined what cordless tools can do—we looked to deliver power and performance that exceeds their gas-powered equivalents

Designed to work harder, all day every day, in the most challenging conditions. This series of high-spec tools and backpack battery take gas-free working to a whole new level, ensuring productivity levels remain high.

***SUPER TOUGH.
SUPER POWERFUL.***

Built to last and last

All tools in the commercial series are engineered to last longer, so you can cut maintenance time down to size. And because they are quieter and lighter with no fumes and less vibration, you can work comfortably for longer.

New series, same compatibility

EGO is a name you can rely on. With a history of cordless power innovation, we know the ability to mix and match batteries, backpacks, harnesses and tools is vital. This level of complete flexibility continues with the commercial series.

**LESS VIBRATION,
LESS NOISE,
MORE USER
FRIENDLY**

Power through any job without the excess physical stresses and strains associated with heavy, noisy and vibrating gas-powered tools

A big benefit of choosing EGO's low-vibration cordless tools is how they help users avoid the risk of Hand-Arm Vibration Syndrome (HAVS). Also known as "Vibration White Finger" it causes painful and disabling disorders of the blood vessels, nerves and joints.

Designed so you can work comfortably all day long

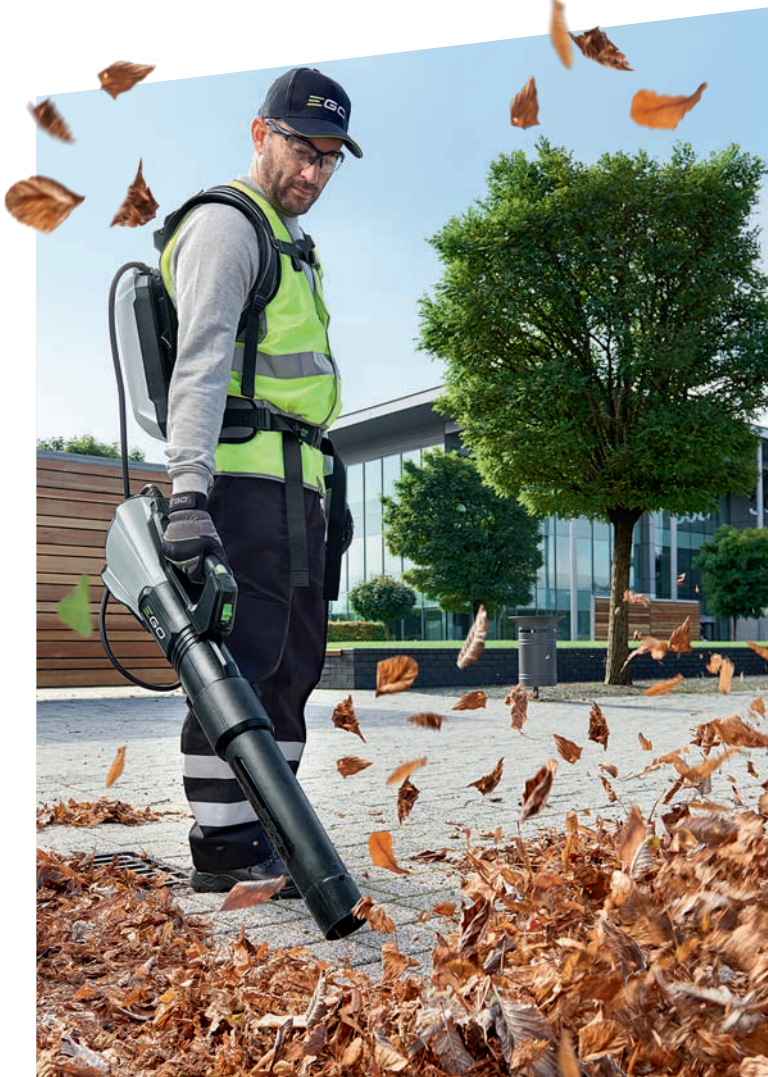

With a smooth brushless motor and fewer moving parts, all EGO POWER+ tools have been designed to operate with low levels of vibration, often under the 2.5m² Exposure Action Value limit (EAV) and well below the Exposure Limit Value (ELV).

This allows you to comfortably work with them all day long without any risk to your health. So, choose EGO POWER+ and protect yourself every working day.

They are much quieter, too

Let's face it. Gas tools are noisy, and daily exposure can lead to hearing loss and also tinnitus, a permanent ringing sensation in the ears. Fortunately, the EGO POWER+ range is much quieter than gas-powered alternatives reducing the risk of potential damage, especially over long-term use.

Operating noisy equipment can also lead to an increase in work-related stress. Many factors are known to contribute to this condition and rarely there is a single cause. However, because EGO POWER+ tools operate at lower sound levels, the working environment is quieter and less stressful for the user.

Team up your EGO POWER+ tools with one of our lithium-ion backpacks

Balancing exceptional power with user comfort, EGO's lithium-ion BAX1501 backpacks are ergonomically designed to keep you working all day long. The battery pack can be removed from the harness* allowing the battery to be shared among multiple users, each with their own harness.

To ensure optimum performance, efficiency and longevity, these high-energy capacity batteries incorporate intelligent individual cell monitoring and balancing, both when powering a tool and when recharging.

Designed to perform, built to last

Delivering the run times you demand, EGO POWER+ backpack batteries can give you a full day's work** from a single charge. The high-quality cells with both high power rating and high energy density can handle up to 1,000 charge cycles. Plus, with fast recharging you can go from empty to full in just 3.5 hours.

Flexible performance

With long run times and user-comfort, EGO POWER+ backpack batteries are perfect for all-day use. They're compatible with all EGO POWER+ tools, and as the battery is on the harness and not the tools, they are lighter and even easier to handle.

STRING TRIMMER

THE TOUGH ANSWER TO ROUGH GROUND

Perfectly balanced for comfortable use, the EGO Power+ Commercial String Trimmer make short work of even the roughest ground. Power comes from EGO's Commercial Backpack Battery and the ready-for-anything 2,000-watt motor.

All this is channeled through the light yet amazingly strong carbon fiber shaft. Unlike alloy shafts, it won't bend and lose its shape over time, keeping vibration levels to a minimum.
